

# "CULTURE WARS"

## getting you down?

**STOP** a minute and ask yourself:

- ***Does this message HARM a vulnerable person or group?***
- *Is someone trying to **scare me** or make me **angry**?*
- Can I make sure this is accurate information? Reliable source?
- Do I see this happening in my community?
- *Have I **experienced this myself**? To someone I know?*
- *Is the message a **bot**, spreading an anti-democratic idea?*
- *Does this issue even belong in a **political** discussion; is it just a trivial issue that bad actors are **using to divide us**?*

***If you feel the message may be false or misleading,  
be part of the solution:***

***Don't share!***
